

SAYS GOVERNMENT REPORT IS UNFAIR

President of Calumet and Hecla Mining Co. Takes Issue With Government Report

COLORED TO FAVOR STRIKERS

President Shaw Imputes the Motives of the Investigators and Asserts Report Is Colored In Favor of the Strikers

WILL NEVER RECOGNIZE FEDERATION

BOSTON, Jan. 12.—President Quincy A. Shaw of the Calumet and Hecla mining company, in a statement issued tonight takes issue with the report of the government committee made public last Saturday on the strike in Michigan in which the Calumet and other mining companies are involved. He imputes the motives of the investigators in making public the report at this time and intimates that it was colored in favor of the strikers. Mr. Shaw's statement follows:

"After Secretary Wilson's speech in Seattle, it was to be expected that his subordinates would make a report which would be highly colored in favor of the strikers. The publication of the report also is well timed to assist the strike leaders in arousing false sympathy through misrepresentations. So far as it contains information given to the committee, the report could have been published months ago, if there were a genuine desire to have the public know the conditions under which the men worked.

"Extracts from the report which appear in the papers if accurately quoted contain many mis-statements. Since December 1st, an eight hour day has been in effect underground and in all places where work is continuously conducted for 24 hours. All other employees have a nine hour day.

"Directly after mentioning the Calumet and Hecla mining company's name, it is said that 'two men made affidavit that at the point of a gun they were compelled to go from Superior Calumet and then to work at some other camp.'

Secure False Affidavits.

"These affidavits are false if they relate to any action on the part of either the Superior or the Calumet companies. We have evidence of false affidavits secured by the federation.

"The report states a number of strikers have been killed and others injured in the use of arms in the possession of Waddell men. This convicts the Waddell men before their trial. The record of those killed to date is as follows:

"Two strikers, who are said to have resisted deputies; one striker who was connected with the brutal murder of Deputy Pollock. On the other hand three non-union men were shot to death while lying in bed and hundreds of men whose only offense was a desire to go to work have been attacked and so cruelly beaten that they required medical attention at our hospitals.

"The Quincy Mining company is accused of 'evidently intending to deceive Germans who could not read English because they complied with the laws of New York and printed the word 'strike' in the English language. Not only did the company comply with the law but Mr. Parsons Todd has told me on two occasions that he went with interpreters and personally interviewed the men who were engaged to work so that there could be no misunderstanding of the situation.

Report Grossly Unfair.

"The report states that 'the profits have been extremely large,' namely \$121,000,000 in dividends. It probably would be equally interesting had the report stated that in addition to the dividends the company has paid for labor, supplies, lands and taxes, roughly an additional \$220,000,000.

"The report is grossly unfair when it states that 'so-called 'strike-breakers' have been, or are being imported. There was a serious shortage of labor in all the mines for a year previous to the strike and to make up this shortage and to take the places of the men who have left the district we have employed for hundreds of men who will receive wages and work under conditions as good as, if not better, than in any mining district in this country.

"We hope that the men now coming into the district come there to stay permanently and if they prove themselves efficient workmen and lawabiding citizens I can give them assurance of their jobs during the life of the mines, with plenty of chance for advancement.

"Our general manager began working for the company in the '70's when he was less than twenty years old. Just previous to the strike the company had in its employ 1,600 men who had worked for the company between fifteen and forty years and it also had in its employ 400 men who were sons of these 1,600 men. These are the kind of men the company wants and it cannot afford to and will not em-

SPRINGFIELD ASKS RATE ADJUSTMENT

CAPITAL CITY PETITIONS PUBLIC UTILITIES COMMISSION

In Petitioning for the Adjustment of Rates for Gas Furnished by the Springfield Gas Co. the City officials Assume the Commission to Be Legally Organized Without Confirmation by the Senate.

SPRINGFIELD, Jan. 12.—The city of Springfield today filed with the newly created state public utilities commission a petition for the adjustment of rates for gas furnished by the Springfield Gas & Electric company. In so doing the city officials assume the commission to be legally organized with jurisdiction to act even though the appointments have not been confirmed by the senate, that being the position taken by the city's legal advisor, A. D. Stevens.

The petition is the culmination of a fight of long standing between the city and the local gas company instituted and carried on by W. J. Spaulding the commissioner of public property.

The basis of the petition is an investigation conducted under the direction of Edward W. Bemis, formerly public utility expert of Chicago, and now a member of the advisory board of the inter-state commerce commission, having charge of the valuation of railroads.

Mr. Bemis' investigation as stated in the petition, shows a valuation of the property of the company of not to exceed \$700,000 and a net profit made during the year ending June 1st, 1913 at its present rate of \$1.00 per thousand cubic feet, over \$95,000, that a rate of 75 cents would have produced a return of six per cent upon the value of the company's property during that period, and that the increased consumption which would follow a lowering of the rate, which would result without a corresponding increase in operating expenses and investments, would be sufficient to maintain the six per cent earning at a rate of 70 cents.

The petition also sets forth the dividends declared since the organization of the company in 1855, averaging, as shown by the investigation over 25 per cent per annum on all money invested by stockholders.

The state commission is asked to investigate and determine the proper rate to be charged and to fix the rate at not to exceed 70 cents.

This is the first rate case presented to the commission and is regarded as of great importance, not only to Springfield, but to the entire state as it is expected to establish precedents in rate-making cases in Illinois.

PETITION ASKS IMMEDIATE HEARING FOR HARRY K. THAW

Judge Aldrich May Permit Prisoner's Release on Bond Since Commission Found Him Sane.

Concord, N. H., Jan. 12.—An immediate hearing on the matter of releasing Harry K. Thaw on bail was asked for in a petition filed in the United States district court today by Merrill Shurtleff, one of Thaw's counsel. The petition also asks for further time to prepare Thaw's brief in the matter of extradition.

The brief of Attorney General Carmody of New York, on the matter of Thaw's extradition also was filed today. In it Mr. Carmody contends that the request of New York for Thaw's extradition should have been granted and that Thaw's test of the constitutionality of his rights should have come in an appeal from the decision of the court of New York in the event he was found guilty there on the charge of conspiracy.

Carmody would Appeal.

Albany, N. Y., Jan. 12.—Attorney General Carmody will appeal to a higher federal tribunal, the supreme court if necessary, should Judge Aldrich of the United States circuit court permit Harry K. Thaw's release on bail. He also will take steps to stay any such order by Judge Aldrich pending final disposition of the case by the higher court. In announcing this determination tonight, the attorney general expressed the opinion that in entertaining Thaw's application for release Judge Aldrich has exceeded his authority.

Thaw will be kept under close surveillance by New York authorities in case of his release and if he attempts to leave Judge Aldrich's jurisdiction his arrest will follow immediately. Mr. Carmody would regard the release of Thaw under bond as equivalent to giving him his permanent freedom he said tonight.

SERIES OF EARTHQUAKES SHAKE JAPANESE CITY

ERUPTION OF ISLAND VOLCANO FOLLOWS EARTH SHOCKS.

Population of Island Is About 15,000 and It Is Impossible to Estimate the Casualties as All Railroad and Telegraph Lines Are Broken.

TOKIO, Jan. 12.—A series of 350 slight earthquakes shook the town of Kagoshima, at the southern end of the island of Kyushu today. They were followed by the eruption of a volcano on Sakura, a small island in the Gulf of Kagoshima, where two villages were buried in ashes. Warships have been despatched to the scene with doctors and supplies. Railroad and telegraph lines are broken.

The town of Kagoshima is in great danger according to latest reports. The earth shocks and volcanic eruptions continue with violence. The inhabitants are fleeing for their lives.

The population of the Island of Sakura is about 15,000 and it is impossible to estimate the casualties. It is feared many have perished. The volcano eruption on Sakura began with thunderous explosions and and volcano became a roaring furnace. The burning rock and ashes set fire to several villages.

Evacuation Impeded.

The evacuation of Kagoshima was impeded by a huge rock that had been thrown out by the volcano, which wrecked the rails outside the town. A telegraph operator at Kagoshima sent this message:

"The city is almost buried in ashes and stones. The people are in a panic and a wild exodus has taken place. This will be the last dispatch."

WOMAN POLITICIAN DRIVEN FROM HOME BY MASKED MEN

Sixteen Men Enter Mrs. Margaret Ross' Home and Drive Her and Her Sons Away.

Aberdeen, Wash., Jan. 12.—Driven from her home twelve miles from here by sixteen masked men last night, Mrs. Margaret M. Ross, well known Democratic politician, today sent an appeal to Governor Ernest Lister for protection and announced that she and her family would return to her home as soon as she receives assurance from the authorities that she will not be molested.

According to the account told by Mrs. Ross the sixteen men, all masked and armed, forced their way into the house, removed her and her two sons and after setting fire to the place drove them twelve miles and ordered them not to return under penalty of death.

The trouble began some time ago when Mrs. Ross' right to the claim was denied. Her two sons then were accused of assaulting a neighbor for alleged slander of their mother, leaving him for dead in the road. They were tried and convicted on an assault charge but succeeded in getting a new trial. A bitter feud in the neighborhood resulted.

Mrs. Ross was Democratic candidate for state representative from Clatsop county in the fall of 1912 and stumped the state in the interest of the Democratic ticket. She gained prominence in the campaign by making addresses, which, while ostensibly in favor of the Democratic ticket, were bitter attacks on the personal habits and character of Theodore Roosevelt. The state central committee withdrew its endorsement and her campaign speeches were cut short.

GO-TO-CHURCH SUNDAY MAY BE MADE NATIONAL MOVEMENT

Reports Received by the Christian Endeavor Society Indicate Suggestion Is Meeting With Encouraging Response.

BOSTON, Jan. 12.—Reports received at the headquarters of the Christian Endeavor Society in this city indicate that the suggestion that go-to-church Sunday be made a national movement, has met with encouraging response, according to a statement tonight from William Shaw, general secretary of the society. Among messages endorsing the plan, given out tonight by Mr. Shaw, were some from Vice-president Marshall and Governors P. L. Goldsborough, of Maryland, George W. Hesse, of Arkansas, E. M. Ammons, of Colorado, William Hodges Mann of Virginia and Martin H. Glynn of New York.

Vice-president Marshall said: "I have always voiced my approval of church attendance. I suppose one Sunday is better than none and may lead to continued attendance on the part of some persons. With this hope I approve of your go-to-church movement."

According to Secretary Shaw an elaborate campaign has been planned in Chicago for February 1st.

BLOOMINGTON CHOSEN.

Decatur, Ill., Jan. 12.—Bloomington was today named by Principal H. Newlon as the city chosen for the Central Illinois sectional basketball tournament.

CONGRESS SETTLES DOWN TO WORK AGAIN

Administration's Anti-Trust Program Looms Up as the Big Business of the Winter

AWAIT WILSON'S MESSAGE

Until After the President's Message Is Delivered Next Monday or Tuesday Both Houses Will Work on Other Measures

TRUST MESSAGE WILL BE BRIEF ONE

WASHINGTON, Jan. 12.—Congress settled down to the work of its long regular session today after being in recess since the passage of the currency reform bill just before Christmas. The coming administration anti-trust program loomed up as the big business of the winter but with the prospect of awaiting until next week for the president's message, both houses devoted themselves actively to other measures.

On the house side of the capital return to work was celebrated by prominent passage of the first of the annual supply measures, the District of Columbia appropriation bill, and the introduction of the usual opening day batch of miscellaneous measures. The senate began debate on the Alaskan government railroad bill.

The anti-trust experts of both houses began a period of extreme activity which will continue until the anti-trust program is written into law before the close of the session. Actual work on the anti-trust bills in the house judiciary committee and the senate interstate commerce commission will be delayed pending President Wilson's address.

Will Bring Rough Draft.

A rough draft of the address will be brought to Washington by the president when he returns tomorrow and later in the week Chairman Newlands of the senate commerce committee probably will be called into conference with the president and Attorney General McReynolds. Meantime Chairman Clayton and Representatives Carlin and Floyd of the house committee are reviewing the long list of anti-trust measures along before the committee. It is not probable that any of these bills will be accepted as a part of the administration plan for industrial peace but all the ideas embodied in them will be considered.

Senator Newlands expects to call his committee together Friday to take up the anti-trust program. Cold storage plant magnates with press agents and lawyers are in Washington clamoring for an opportunity to prove to house committee on interstate and foreign commerce that refrigerated storage of staples has nothing to do with the high cost of living.

When Representative McKeller introduced his bill with a speech attacking the cold storage plants, it was referred to a sub-committee of which Representative Covington of Maryland is chairman.

In some way the word went forth that hearings were to be held tomorrow. But Representative Covington changed his mind and the measure went to the regular committee calendar where it will not be reached until some time in February.

Scarcely a quorum of the commerce committee is in Washington. Chairman Adamson and several other members are in Iowa investigating a proposal to build a bridge across the Mississippi at Keokuk so the storage interests hardly will get their hearing until next month.

Of Immediate Importance.

On Board President Wilson's Special Train, Charlotte, N. C., Jan. 12.—Anti-trust and rural credit legislation are considered of paramount and immediate importance by President Wilson. Though the influence of the executive will be exerted in the behalf of other measures as well during the present session of congress he indicated in a conversation with the correspondents aboard his train today that in the immediate future these two subjects would occupy the forum of public attention.

The president showed clearly that these reforms in particular had been on his mind during his vacation at Pass Christian.

Besides sketching his trust message, which will be characteristically brief, Mr. Wilson carefully studied the report of the commission that went abroad to study rural credits. He examined also a bill on the subject prepared by Senator Fletcher, chairman of the commission and said that he had just written the Florida senator asking him to confer with him about it at the white house when he got back. The president remarked that the bill seemed sound, in the main though he thought some additions ought to be made.

In giving his attention now to the trust and rural credit questions the president feels that he is carrying out not only the promises made in the party platform, but in fulfilling at the same time an informal understanding with members of the senate and house who sought to bring the subject of rural credits into the discussion of the currency bill and to prohibit interlocking directorates and other trust evils by

ALARMED BY INCREASE OF MINE ACCIDENTS

ACCIDENTS UNDERGROUND CAUSE 2,360 DEATHS DURING PAST YEAR

United Mine Worker Officials, Secretary Lane and Dr. J. A. Holmes, Discuss Probable Cause of the Increase and a Possible Remedy.

WASHINGTON, Jan. 12.—Alarmed by the increase of mine accidents during 1913, when 2,360 deaths were recorded in the United States, John Mitchell former president of the United Mine Workers, Vice-president Hayes of the union, Secretary Lane of the Interior and Dr. John A. Holmes, director of the federal bureau conferred here today to discuss the probable cause of the increase and a possible remedy.

This was the first of a series of conferences to be held at the interior department with the miners representatives, mine operators, state mine inspectors and the federal authorities participating. A statement issued later by the interior department said:

"The special subject for discussion at today's conference was what can be done by the miners toward improvement in safety and health conditions in coal mining operations? Among the special features discussed were the following:

"The co-operation of miners and mine operators, mine inspectors and the bureau of mines in drawing up special safety rules and regulations. "The co-operation of the miners with the management with the rigid enforcement of rules and regulations.

"The co-operation of the miners' organizations with the bureau of mines in placing before the miners the result of the investigations conducted by the bureau and in making more effective the bureau's safety demonstrations and educational work.

"During the past three years, due to the activities of the bureau of mines and the mine inspectors and the co-operation of the miners and mine owners, there has been considerable reduction in the loss of life in the coal mines of the United States. During 1913 however, there has been an unexpected increase of nearly fifteen per cent in the coal fatalities of the country. This increase calls for larger activities on the part of the bureau of mines and more vigorous co-operation on the part of the inspectors, the miners and the mine owners."

EXPLOSION OF SEWER GAS INJURES MANY IN CLEVELAND

CLEVELAND, O., Jan. 12.—Twenty persons were injured and fifteen buildings badly damaged this afternoon by an explosion of sewer gas in a telephone conduit at Ontario street and Central avenue. A man-hole cover was blown a hundred feet into the air and the explosion knocked down horses and felled people in streets, stores and homes. A three-story building, 428 Central avenue was partially wrecked.

Samuel Miller was hurled through a plate glass window into a store.

REACH COMPROMISE.

Austin, Texas, Jan. 12.—Attorney General Looney and representatives of the General Film company and other corporations reach a tentative compromise here today in the state's suit to break up an alleged "picture trust." Terms of the agreement will be kept secret until it is approved by the district court.

Eleven defendants are named in the suit. The state asked penalties aggregating \$27,000,000. Minimum penalties would have totaled \$750,000 had the suit been won in court.

provisions in both the currency and tariff bills.

To Read Message First of Week.

While conferences on these questions have not all been arranged the president is preparing to devote the remainder of the week to consultation with members of his cabinet and leaders in congress and will read his trust message to a joint session next Monday or Tuesday. The president said today that he was unadvised on late developments in the Mexican situation. He seemed somewhat annoyed that Charge O'Shaughnessy should have been drawn into the limelight recently in press reports that he was not in harmony with John Lind and the Washington administration.

The president had pointed out previously that when Mr. Lind visited him the work of Charge O'Shaughnessy was mentioned only in the most favorable terms. The train ride today was a restful one for the president and his family. Few stops were made but at many of the towns and cities the special was run through slowly while the president stood on the back platform and waved his hand in response to the cheers of throngs congregated to see him. At Calhoun, S. C. the old homestead of John C. Calhoun, 800 cadets of Clemson Military College swarmed the end of the train and gave Mr. Wilson a noisy demonstration.

The president will arrive in Washington early tomorrow looking better than he has in several months. His complexion has a ruddy, healthful glow and his step is brisk and springy.

"I have had a real vacation," he told members of his party today with an air of keen satisfaction.

LABOR CONDITIONS IN SOUTH AFRICA SERIOUS

IT IS PRACTICALLY CERTAIN VARIOUS TRADES WILL VOTE TO STRIKE

Situation is Rapidly Becoming More Serious in Johannesburg—Cape Town Harbor Workers Have Been Called Out and the City Bears the Appearance of a Besieged Town so Impressive is the Display of Military.

CAPE TOWN, Jan. 12.—Quiet prevails throughout South Africa today but this may be the lull before the storm as the incoming ballots from various centers make it practically certain a general strike will be voted. The ballots received from miners along the reef all favor a strike and the various trades, including shop assistants, warehouse men and clerks in Johannesburg have voted similarly.

The feeling is growing in Johannesburg that the situation is becoming more serious. The Cape town harbor workers have been officially called out by the union but their response will not be known until tomorrow. A ballot by the Johannesburg branch of the Typographical Union has resulted by a large majority in favor of a strike. This probably means that the people of Johannesburg will have no newspapers after tomorrow.

If a general strike is called, it will be out of sympathy for the strike of the railway employees. The strike of the railway men is said to be due to the policy of retrenchment put into effect by the South African railway administration in pursuance of which hundreds of employees in Pretoria, Bloemfontein, Durban, Salt River and elsewhere have been dismissed. The strikers demand the cessation of this policy of retrenchment and the reinstatement of the dismissed men. They argue that the administration's real motive is to force wages down, as shown by the fact that some of the dismissed have been offered other billets at reduced wages.

Troops are Prepared.

The most hopeful feature of the situation tonight is the extraordinary success attending the mobilization of troops. It is estimated that there are 20,000 armed men on the Rand, most of whom have come prepared for the same kind of a campaign which made the Boers so long the despair of the English generals.

Cape Town today also bore the appearance of a besieged city. A great mass meeting of workmen was held tonight without the slightest indication of disorder. The impressive display of military is likely to have a wholesome effect on the Basutos, squads of whom continue to be escorted to the borders of the native settlements under armed white guards.

The miner accused of causing a native uprising at Jagersfontein Saturday by kicking a Basuto miner to death, has been remanded for trial.

The government is perfecting its plans for handling a general strike, should one be precipitated and all the towns in the disturbed area have been placed under the protection of troops.

Private citizens are coming forward offering to serve as special police and in other ways. Reports from different districts are conflicting but the opinion is that the situation has grown worse.

BORROWS \$724,145 FROM BANK WITHOUT SECURITY OF ANY KIND

Receiver for Henry Siegel & Co., Bank of New York Asserts Proprietors Helped Themselves To Loans.

New York, Jan. 12.—Henry Melville, receiver for the Henry Siegel & Co., bank today told the committee on banks of the state senate that whenever any of the proprietors felt the need of any loose change to the amount of a few thousand dollars he went to the bank and took what he wanted without giving any note or security of any kind.

Mr. Siegel, himself, the receiver, said he borrowed \$724,145 without having security except a written statement.

The hearing was held by the senate committee to get testimony for use in revising the state banking laws in relation to the privileges of private banks. The whole day's session was spent investigating the affairs of the bankrupt Siegel enterprises. Mr. Melville said that the transacting he described were legal under the present laws, but admitted that "conditions were unfortunate."

The Siegel bank according to the receiver's testimony had deposits of \$2,550,333 distributed among 15,000 customers of the fourteenth store in this city. Mr. Melville said this money was loaned also to the two Siegel stores in New York and the one in Boston. The actual assets of the bank, he said, were \$140,000 in cash, \$25,000 in banks and a cash bond of \$100,000.

Mr. Melville said that since he had been appointed receiver he had made several attempts to communicate with Henry Siegel and F. E. Vogel co-partners in the banking company but without success.

MEXICAN REFUGEES WILL BE HELD IN U.S.

Soldiers of the Federal Army and Civilians Will Be Marched to Fort Bliss at Marfa

VILLA TO START SOUTH SOON

Rebel Commander Will Leave for Chihuahua at Once to Direct His Campaign Southward Towards Mexico City

WILL ATTACK ZACATECAS NEXT

PRESIDIO, Texas, Jan. 12.—Six generals of the Mexican federal army, 3,300 fugitive soldiers and 1,500 refugees who were driven out of Ojinaga, Mexico, by General Francisco Villa's rebel forces, were put in readiness today for a four days' march over the sixty seven miles of road to Marfa, Texas. The soldiers will be interned at Fort Bliss, indefinitely.

At Marfa, the nearest railroad station, the federal army which sought asylum in the United States after their defeat by the rebels will be guarded by the border patrol pending their final disposition by the war department. Among the civilians are 1,207 as counted by Major McNamee they have also 1,000 federal army horses and mules.

Major McNamee sent cavalrymen along the road to select and provision camps at the points where the procession will stop. The food supplies will be issued through the army.

Major McNamee was without definite advice as to where the fugitives would be taken after they reached Marfa until late today when orders were received to intern the soldiers at Fort Bliss and permit the women and children to accompany the soldiers. The whereabouts of Generals Pascual Orozco and Ynez Salazar, commanders of federal volunteers who fled from Ojinaga with 700 cavalrymen was unknown to the rebels.

The arrest of Rafael Flores, Orozco's secretary on the road between Presidio and Marfa gave rise to the belief that the general was somewhere on this side of the river.

General Mercado de Salazar, regular, charged Orozco and Salazar with cowardice and the rebels have sentenced them to execution should they be captured on the Mexican side.

General Villa who is in Ojinaga today, started some of his troops to Chihuahua. He himself expected to leave for that city at once to direct his campaign southward toward Mexico City. Hundreds of rifles and numerous field pieces were found in Ojinaga after the federal retreat. The field pieces were those which General Mercado wished to bring to American soil because he had ammunition for them but which he was forced later to abandon.

General Villa said he would use all the rifles and guns in his future campaign against the Huerta forces. The first federal garrison south of Chihuahua is Torreon, 525 miles of the United States border. The suburbs of Torreon already are held by the rebels and General Villa said he expected little opposition to his advance on Zacatecas the next city south.

Calls on President Huerta.

Mexico City, Jan. 12.—Charge O'Shaughnessy's first official act after his return today from Vera Cruz where he conferred with the president's representative, John Lind, was to call on President Huerta. Mr. O'Shaughnessy later said his conversation with General Huerta did not include questions pertaining to the two countries and had no political significance.

Mexican officials appear to be convinced that no change will take place in the general situation as a result of the conference between Mr. O'Shaughnessy and Mr. Lind and look to President Wilson to continue his policy of letting the rebels and federalists fight to a finish, without interference.

SHOWS NO IMPROVEMENT.

New York, Jan. 12.—According to a bulletin issued tonight by the attending physician, the condition of Sir James P. Whitney premier of Ontario, showed no improvement today.

MAN CUTS THROAT WITH RAZOR ON PASSENGER TRAIN

Hotel Proprietor of Modesto, Takes
His Own Life, While Returning
From Hot Springs, Where He Had
Been For His Health.

Abraham Gordon, a hotel proprietor at Modesto, Macoupin county, committed suicide on a Chicago & Alton passenger train Sunday morning, by cutting his throat with a razor. He was just returning from Hot Springs, Ark., where he had been for his health and it is thought he took his life because of poor health. The act was discovered while the train was between Chesterfield and Medora.

Last Wednesday Mr. Gordon went to Hot Springs, and his family expected to remain there for several months. It is said that after he arrived there the physicians told him they could not help him, so he started back home. It is thought his worrying over his physical condition, caused him to become mentally unbalanced. The train which he was returning home on was due in Medora at 10:57, so it must have been a few minutes earlier than that, when the deed was done. Mr. Gordon had gone into the lavatory of the coach and locked the door. Some passengers became alarmed because of the door being locked so long and Conductor John Slavin began an investigation. The door was forced open and the man was lying in a heap on the floor, which was covered with blood, the razor lying by his side. An inquest was held Monday morning. In the inquest it developed that Gordon had left a note to his wife, stating that he would rather be dead, that to linger along in the condition in which he was.

He was born in Green county and was 52 years of age. He married Miss Mayme Anderson, and she survives him and one daughter. He also leaves two brothers, Homer and Charles of Modesto and two sisters, Mrs. Samuel Jones and Mrs. Fred Spires, both of Macoupin county.

The funeral will be from the Baptist church in Modesto, today at 1 o'clock with interment in the Horton cemetery.

GIVES OFFICIAL ANNOUNCEMENT OF THE DEATH OF JUDGE BARNES

Grand Chancellor of Illinois K. of
P. Pays Tribute to Memory of Deceased Supreme Chancellor.

In his official announcement of the death of Judge Charles A. Barnes to the subordinate lodges of Illinois, Grand Chancellor Whitfield of the Grand Lodge Knights of Pythias of Illinois, has the following to say: To the Subordinate Lodges, Knights of Pythias, Grand Domain of Illinois: Brethren: It becomes my sad duty to convey to you certain information relative to the death of Past Supreme Chancellor Charles A. Barnes, who departed this life in England on Dec. 28, 1913.

I have delayed this official announcement of his death until I could have definite advice as to the time for the funeral. The body arrived in New York on the 10th of this month. Supreme Chancellor Carl, Supreme Vice Chancellor Young, Supreme Keeper of Records and Seal Wheaton and Supreme Master of Exchequer Meares, acting on behalf of the supreme lodge, met the remains at New York and will accompany the same to Jacksonville.

I have named Grand Master of Exchequer Millard F. Dunlap and Grand Master at Arms John J. Reeve to serve as an escort for the remains upon behalf of the grand lodge from New York to the late home of Brother Barnes. The funeral will be conducted in Jacksonville on January 13, 1914, at 2 o'clock p. m. The ceremonies will be in charge of subordinate lodges of Jacksonville.

By the death of Past Supreme Chancellor Barnes our order loses one of its greatest Pythians. As supreme chancellor, Bro. Barnes was universally loved and admired for his kindness constantly manifested toward his fellowmen; and because of his unflinching devotion to the principles of our order. Those who knew him best all realized that the fraternal cause has been enriched and the old world made a brighter and better place for mankind as a result of his having lived among us.

The community in which he resided has lost one of its most exemplary citizens, while his family is bereft of a kind, loving and indulgent husband and father. As was said of another, Judge Barnes "was a man of many inches and every inch a man." One of the brilliant lights of Pythianism has been snuffed out.

May we all profit by the example which he, by his daily life, has left us. May we ever heed the teachings of his truly fraternal messages which he constantly brought to us, with a view of trying to uplift our Pythian order to a higher plane of usefulness.

Let us not forget our duty to his loved ones in this their hour of sorrow. Remember that it is our duty to comfort and console them as best we can. May the prayer of our Great Pythian Brotherhood go out for them; and may we strive to help them bear their burden of sorrow. May they at all times be soothed and sustained by their faith in Him who doeth all things well. We believe that if Judge Barnes' wish, relative to this sad hour could be known, he would ask us to sing with Tennyson "Sunset and evening star, And one clear call for me, And may there be no moaning of the bar, When I put out to sea."

But, sustained by the faith which his Pythianism has taught him to have in the Supreme Being in which we Pythians all believe, we would remind us.

"For thou' from out our bourne of time and place, The flood may bear me far, I hope to see the Pilot face to face, When I have crossed the bar."

I trust this circular will be read in every one of the subordinate lodges of this domain and that the chancellor commander of the various lodges will immediately call members to their feet and that one and all may stand with bowed heads and silent prayer for one brief moment to show a proper tribute of respect for our deceased brother. It is my desire that each of the charters of the lodges be drawn in mourning for a period of thirty days to manifest our appreciation of the moral worth of the life that has been closed.

With kindest regards, but in sorrow, believe me to be, sincerely and fraternally yours,

William W. Whitfield,
Grand Chancellor.

FARMERS ATTENTION

Geo. S. Gay, Jacksonville, Ill., wish to announce that they have arranged with the American Steel & Wire Company for a moving picture entertainment of great interest to the farmers. This is entitled "Through the Furnace to the Farm," and deals with the manufacture of steel, especially the nails, barbed wire and woven wire fence used on the farm.

There are 5,000 feet of film in five reels, and these are just a few of the scenes shown:
Mining with giant steam shovels.
Mammoth Clam-Shell buckets.
Huge Ore-carrying boats.
Blast Furnace in action.
Drawing off the Molten Pig Iron.
Bessemer and Open Hearth Processes.
A train load of white hot ingots.
Rolling out the plastic metal.
Cold wire drawing.
Galvanizing.
Weaving wire fence.
The proper way to build fence on the farm.

These have been pronounced the greatest industrial pictures of the age, and it is worth while for any farmer to see them. Admission is by ticket only. Any farmer may obtain free tickets for himself and family by calling on Geo. S. Gay, Jacksonville. Don't forget the time and the place, Jan. 16th, Friday, at Scott's Theatre at 1:30 p. m.

DISCUSSES LIGHT CONTRACT PETITION.

J. E. Schofield has the following communication in the recent edition of The Farm and at his request it is published herewith:

"I see the Jacksonville Railway & Light company is circulating petitions for an election to compel the city commissioners to make a contract to pay the Light company \$12,000 a year for 800 lights. The superintendent of the company, Mr. W. B. Miser, says:

"We believe that the vote of the people on December 29 against the issuance of the \$50,000 of bonds for rebuilding the municipal light plant was an indication that the majority of the people want a street lighting contract with our company."

"Perhaps the wish was father to the thought. The making of a contract with the light company was not an issue in the election of Dec. 20. I believe the bond issue was defeated simply because a majority of the voters were opposed to running the city deeper into debt, and not because they wanted the city to pay a profit to the Light Co. The city commissioners have been doing their best with the money and equipment at their disposal. Corporations, as a rule, are not in business for their health, but perhaps the Light company is an exception. Mr. Miser says that his company is furnishing power to pump the Widenham-Dam wells cheaper than the city could produce the same. I have long suspected the Light company of philanthropic motives, and Mr. Miser himself confirms my suspicions, for he says:

"We feel that we owe it to the citizens to give them an opportunity to decide whether the city shall enter into such a contract."

"It seems that the Light company does not care anything about making a contract to furnish light to the city at such a low price. A sense of duty is responsible for the company's anxiety to compel the commissioners to make this contract with the company. Mr. Miser says so himself. Some evil minded person may claim the Light company expects to make money out of this contract, but some people would attribute unworthy motives to the noblest of men. It is only natural that the Light company should wish to do something nice for the city out of gratitude for being permitted to operate so many years without a franchise."

"Before the city light plant was built the old Gas Light & Coke Co. was willing to light the city for \$75 per light per annum. At the present time the Jacksonville Railway & Light company is more than willing to furnish lights at \$15 per light per annum. Since the city built its own plant the price has gone down \$60 per light per annum, and Commissioner Brennan has saved at \$60 how much the city has saved at \$60 per light per year since Mayor Schoenfeld's administration and add it to what he figures the city light plant saved the city."

"A stranger unfamiliar with the fact that the Jacksonville Railway & Light company is not like other corporations might think that the price of lights would go up again after the city plant is dismantled and the first contract expires, but that is a wicked thought."

Bumped Up Against the Real Thing
"I think I have bumped up against the real thing in Chamberlain's Tablets," writes Dr. R. Thomas, of Tidouche, Pa. "They do the work and cause no unpleasant reaction."

In cases of constipation when pills and saline cathartics are used, their use is often followed by constipation as they take so much water out of the system. On the other hand the effect of Chamberlain's Tablets is so agreeable and so natural that you do not realize that it has been induced by a medicine, and no reaction follows their use. SERIES OF LITERARY EVENINGS ARRANGED AT PUBLIC LIBRARY

Short Program of Entertaining Talks Will Be Given Each Tuesday—Young Women's Reading Circles Formed.

Beginning the last of this month, a short program of interesting talks on books and other special subjects will be given each Tuesday evening at the Public Library. Among them will be a talk by C. H. Russell on "The Evolution of the Timepiece," a talk on finance by M. F. Dunlap and an address on the rugs of the Orient by A. A. Sleyman. Others who will appear on the program are Dean Hayden of Illinois College, Col. Rowe and Prof. Rollin H. Tanner. The programs this year will be an hour or less in length.

Judging from the success of the library talks last winter, this series should be a successful one and full of profit to those who attend. Miss Lenora N. Webber, the librarian, has been planning for this series for a long time and has arranged the talks from a large variety of subjects. It is planned to have two or more speakers each evening who shall review books or discuss topics in a measure related.

Another feature of the young women's reading circles, announcement of which was made some time ago, are progressing rapidly and all who are interested would do well to communicate with Miss Webber at once. These circles will meet once a week and will consider such subjects as art, music, history, science and the modern novel and drama. Each circle will meet under the direction of a leader and the gatherings will be wholly informal.

The library activity is the work for the schools. The librarian and her assistants have done much toward preparing bibliographies on various subjects, selecting themes, etc. Miss Webber has just finished some special work of this kind for the principal of the Meredosia schools. Last year a number of classes from the local high school were given instruction in simple literary methods and some work of the kind has been done this year.

JACKSONVILLE MEN PROFIT FROM \$100,000 OIL STRIKE

O. C. Henry of this city and Ed Brennan of Pana, formerly manager of the Pacific Hotel here, are part owners of an oil property in Crawford county worth \$100,000 according to a report current at a late hour last night. Messrs. Henry and Brennan, says the report, were associated with four others in the ownership of a 300 acre tract on which a gusher was struck of high capacity and that the six men were offered the above for their holdings. The property is said to be located in Crawford county, near Robinson, a district in which there are a number of bearing wells.

MR. ENGEL MAY BE CANDIDATE.

Commissioner Louis Engel is understood to be seriously considering the question of becoming a candidate for the Illinois legislature at the next election. Mr. Engel has not decided the matter yet, but has been urged by a number of friends in both this and Sangamon counties to make the race. He said yesterday that he had by no means as yet made up his mind but that he was giving the question consideration. Mr. Engel has a large following of friends and would doubtless make the contest interesting for his opponents.

JUDGE BARNES' FUNERAL TO TAKE PLACE TODAY

SERVICES WILL BE AT 2 O'CLOCK AT STATE STREET CHURCH.

Knights of Pythias Will Attend in a Body—Other Orders To Send Representatives—Hundreds Escort Remains From Train.

Funeral services for Judge Charles A. Barnes, whose remains arrived from England Sunday evening at 5:30 o'clock via the Chicago & Alton will be held at the State Street Presbyterian church this afternoon at 2 o'clock in charge of Dr. A. B. Morey and Rev. Howard D. French, pastor of the church. Interment will be made in Diamond Grove cemetery and the commitment services will be in charge of the Knights of Pythias.

Such large numbers will attend the services that the capacity of the church will be taxed to its utmost. Reservation has been made for Knights of Pythias, who will attend in a body. Other orders, realizing that a large number will wish to attend, have arranged to have special committees represent them at services. The drill team of Ilderim Temple D. O. K. K., and members of the Morgan County Bar will attend.

American Consul Aided.
In preparing for the journey home Mrs. Barnes was aided in every manner possible by the American consul. One instance of his aid is given in the preparations for boarding the steamer. According to a rule among steamship companies in England a body must be at dock twenty-four hours before the hour of sailing. It was impossible for the undertaker to complete his work in time to comply with this rule and it was only after the consul had taken up the matter that Mrs. Barnes was notified that the body would be received at any time before the sailing time of the vessel.

At New York City F. E. Farrell met the steamer and was greatly aided in transferring the remains from the Baltic to the Pennsylvania railroad train by a letter from Secretary of State Bryan. He was accompanied by an official of the Pennsylvania and less than one hour elapsed between the docking of the Baltic and the departure of the train bearing the body. Mr. Farrell had completed all details for the transfer prior to the arrival of the Baltic and everything worked out just as he had planned. The party made the trip in a drawing room car and transferred to the Chicago & Alton at St. Louis, arriving in this city at 5:30 o'clock Sunday evening.

Great Throng at Station.

Hundreds of members of Knights of Pythias, members of other lodges and friends were at the station awaiting the arrival of the remains. The body was placed in a hearse and bearers from Favorite Lodge No. 376 and Jacksonville Lodge No. 152, Knights of Pythias, walked beside the hearse. Supreme Chancellor Carlin of the Knights of Pythias followed with an escort composed of M. F. Dunlap, grand master and ex-chancellor; John J. Reeve, grand outer guard and Judge O. P. Thompson and J. F. Clause. They were followed by members of the Knights of Pythias lodges under direction of A. J. McCarty and members of the Elks under direction of F. L. Sharpe. The bearers were: W. D. Gates, J. S. Sheppard, H. C. White, J. I. Graham, James C. Pyatt and Pearl Hughes from Jacksonville lodge No. 152 of which Judge Judge Barnes was a member; L. B. Turner, Charles Godfrey, Horace H. Bancroft, E. P. Brockhouse, J. W. Chipchase and Gilbert Masters from Favorite lodge No. 376.

The remains were taken to the Reynolds undertaking establishment where the casket was unsealed after several hours work and the body was taken to the Barnes residence on West State street. The casket as shipped weighed 800 pounds, and to open it the covering of a lead case had to be cut out. The casket will be sealed again this morning.

Vice Supreme Chancellor Young of the Knights of Pythias, who was among those to escort the remains from New York, stopped over in St. Louis and came to the city Monday night to attend the funeral. The officers of the grand lodge of Illinois are expected to attend the services.

FARMERS' ATTENTION

Geo. S. Gay, Jacksonville, Ill., wish to announce that they have arranged with the American Steel & Wire Company for a moving picture entertainment of great interest to the farmers. This is entitled "Through the Furnace to the Farm," and deals with the manufacture of steel, especially the nails, barbed wire and woven wire fence used on the farm.

There are 5,000 feet of film in five reels, and these are just a few of the scenes shown:

Repeat Orders

Sometimes a man will be talked into buying a thing and afterwards regret it. But if he repeats the order it shows that the article is staple and its importance grows with familiarity. Now listen:

Babcock Fire Extinguishers are a staple. The one who knows them best buy most

freely. The State Institutions of this city have been using them for 40 years and they buy more every year. Our Saviour's Hospital bought several years ago and have since increased the number. Passavant Hospital first bought 2, then added 10. The Woman's College bought 11 and a year later bought 27 more. The Trustees of Illinois College, after having them in their own homes for years, bought 28 for the college buildings.

In business, Harry Frankel bought 1, then 2; Capps & Frank bought 2, then 4; Elmer Bros. 3, then 7. There are but instances.

ploy men who wish also to work for the federation of miners."

Union Ranks Breaking.

Houghton, Mich., Jan. 12.—Fourteen new eviction suits, coupled with a blizzard and the first break in the union ranks at Apameek village in the northern part of the strike district caused leaders of the Western Federation of Miners to shake their heads dubiously today. The union stores, especially the one in Hancock, were crowded all day and numerous requests for increased fuel and food supplies had to be met. Charity workers and Salvation Army officers also found numbers calling awaiting them.

"This means that we must keep on getting busy," said Dan Sullivan, president of the district council of the federation, as he watched the clouds of snow driven by a twenty-five mile gale off Lake Superior. "We have feared all along that many men would feel like quitting the struggle if we got an old-fashioned touch of snow and ice. Thus far the elements have been good to us but today's storm is an added burden on our shoulders."

Several Turn in Their Cards.

The desertions at Apameek village were fourteen in number and half a dozen union members were reported to have turned in their cards to the management of the Mohawk mine. Both companies are in the district that has caused most anxiety to operators and the last of the state troops left that neighborhood early this morning. Fears that riots might result from the withdrawal of the militia and that non-union men might be afraid to continue work without the moral support of the bayonet has been expressed by officials at Keweenaw.

The blizzard, however, solved the question, at least for today.

Eviction suits heard today were filed by the Copper Range Consolidated company against seven families at Tri-mount and an equal number at Baltic. These mine locations are south of Houghton. As in all other court cases the men allowed the plaintiff to take judgment and Herman Wierdler, circuit court commissioner, fixed the appeal bonds at twice the yearly rental, the bonds ranging from \$96 to \$150 each. These fourteen cases cleared the court docket of this class of action.

Rumors that a break was impending between the Western Federation of Miners and the American Federation of Labor were given considerable publicity today but were at once denied. James A. Short and James R. Roach, personal representatives of Samuel Gompers said the national labor body would continue its support of the strike at least until after the coming meeting of the executive council in Washington.

GOVERNOR ASSUMES THE FULL RESPONSIBILITY FOR ARREST

Ammons Asserts "Mother" Jones Was Deported From Strike Zone By His Order and Gives Reason.

Denver, Colo., Jan. 12.—Governor Ammons tonight issued a statement in which he assumes full responsibility for the arrest of "Mother" Mary Jones by military authorities in Colorado and declared she will be held incommunicado until she gave her promise to leave the strike zone of the state. He said: "Mother" Jones came to this state early in the days of labor strife and by her incendiary speeches stirred up rioting which resulted in bloodshed. She finally was persuaded to quit when threatened with arrest and left the state. But upon her return she defied the militia, the state officials and the governor of the state. She was given military escort from the strike region and told not to return. Immediately upon her arrival in Denver she announced she would go back to Trinidad. Her whole attitude was one of defiance.

"Last night she went back in disguise and said her return was for the purpose of saying what she pleased. This state is paying \$5,000 a day for the preservation of order in the strike regions and I don't propose that she shall make that expenditure useless. She will be prevented from seeing anyone who will repeat what she says. Her attorney will be given permission to visit her so she can file a habeas corpus petition if she so desires and I want her to do so.

"Simply because she is a woman, and an old one at that, is no excuse for her actions and is no reason why she should be permitted to stir up trouble. She will be released whenever she announces her willingness to leave the strike district.

"I assume full responsibility for her arrest. I had her placed in one of the best rooms in San Rafael hospital, opposite the military camp in Trinidad, and she will be accorded the most courteous treatment."

It was reported here tonight that "Mother" Jones became extremely boisterous in the hospital today and so disturbed the patients' rest that military officers threatened to put her in a padded cell in the insane ward unless she remained quiet.

John McLennan, president of the Colorado State Federation of Labor and executive board member of the United Mine Workers of America, stated tonight that a habeas corpus petition would be filed in behalf of "Mother" Jones tomorrow in Trinidad and that he is positive that she never will accept the governor's conditions for her release.

CLARENCE EDDY HEARD IN BRILLIANT ORGAN RECITAL

Noted Player Delights Audience By Artistic Program at Woman's College.

A brilliant organ recital was given last night by Mr. Clarence Eddy, at the Woman's college, as one of the attractions of the artists' course. The program was varied for all tastes and his playing showed the possibilities of the organ along the lines of registration, many beautiful effects being brought out.

Mr. Eddy is one of the best known among the American organists and he never fails to delight an audience with his artistic tastes. He expresses himself highly pleased with the new organ at the college, which he said had several features of unusual excellence. The audience was of good size, a number being present from out of the city.

His program follows:
Concert Overture in E-flat—William Faulkes
(a) Supplication, (b) Canzone, (c) Gloria in Excelsis (New)—Julius Harrison

(a) Rondo, "Soeur Monique"—Francois Couperin
(b) Toccata and Fugue in D minor—J. S. Bach

(a) "Cantique d'Amour"—S. Tudor Strang
(b) Allegretto in E-flat—William Wolstenholme

(a) "Le Secret d'Amour"—Bruno Oscar Klein
(b) "From the land of the sky-blue water"—Charles Wakefield Cadman

(New arrangements by Clarence Eddy.)
Fantasia on "My Old Kentucky Home" (New)—J. E. W. Lord.
"At Twilight" (New)—J. Frank Frysinger

Motto:
When the sun has sunk to rest,
And ceased to sweep her golden rays
across the ocean's breast,
The wanderer, from his apparent joy
Returns, in sorrow to the empty
nest.

AT THE GRAND.

"Stop Thief" a comedy-farce produced by Cohan and Harris, and written by Carlyle Moore, was the attraction at the Grand Monday night, which played to a large audience. The play, which is unique in many respects, deals with the fortunes of two kleptomaniacs and a regular "crook." Through its humorous story there is interwoven a love romance which was delightfully told by a capable company, the same that has been appearing in Chicago and St. Louis.

ATTENDED MEETING OF REGIMEN.

In Chicago Saturday night J. F. Brennan attended a public installation of Regiment officers at one of their wigwags. The work was done by a team made up of men representing all of the eleven tribes in Chicago. A great company was present and the occasion was one of great interest.

HOPPE WINS FIRST BLOCK OF MATCH WITH PETERSON

St. Louis, Mo., Jan. 12.—Willie won the first block of his match with Charles Peterson of St. Louis here tonight scoring 400 points at 18.2 balk line to Peterson's 383. Peterson's best run was 92; that of the champion was 61.

Charles Peterson will be remembered by many cists in this city who saw him give some remarkable exhibitions at the Jefferson Pool Room. Ed Peterson, proprietor of the Jefferson is a brother of Charles.

CLAIMS CHAMPIONSHIP

Chicago, Jan. 12.—Gusac Friskeny, a Bohemian, tonight took two straight falls from Gus Schoenlein (Americans) of Baltimore.

The first fall required 32 minutes and the second three minutes. Friskeny claims the European championship. Both are heavyweights.

A pimply face will not embarrass you much longer if you get a package of Dr. Edwards' Olive Tablets. The skin should begin to clear after you have taken the tablets a few nights.

Cleanse the blood, the bowels and the liver with Olive Tablets.

Dr. Edwards' Olive Tablets are the successful substitute for calomel—there's never any sickness or pain after taking them. Dr. Edwards' Olive Tablets do that which calomel does, and just as effectively, but their action is gentle and safe instead of severe and irritating.

No one who takes Olive Tablets is ever cursed with "a dark brown taste," a bad breath, a dull, listless, "no good" feeling, constipation, torpid liver, bad disposition or pimply face.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil, you will know them by their olive color.

Dr. Edwards spent years among patients afflicted with liver and bowel complaints and Olive Tablets are the immensely effective result.

Take one or two nightly for a week. See how much better you feel and look, 10c and 25c per box. The Olive Tablet Company, Columbus, O. All druggists.

SEPTIC SORE THROAT DISCUSSION BY DOCTORS.

Common Ailment Accompanied by Serious Complications in Many Cases.

The epidemic of septic sore throat which has been in the city for some time was discussed at the last meeting of the Morgan County Medical society. Dr. T. O. Hardesty and Dr. A. R. Gregory lead in the discussion which was followed by a number of the physicians. The fact was brought out that many of the cases were mild while others were of a severe and serious type. There has been an unusually large number of cases of sore throat, followed by erysipelas and in many instances by endocarditis, rheumatism, appendicitis, inflammation of the bowels. In some cases the microscopic test showed bacilli of diphtheria, and several diphtheria cases have been reported with one or more deaths. The physicians were of the opinion that all persons should be very careful and not neglect a sore throat and also that school authorities should see to it that the epidemic did not get started in the schools.

FOUND SHOT GUN.

Mrs. Sarah Hill reported to the police department Sunday morning finding a single barrel shot gun in the yard at her residence on West College street. The gun was undoubtedly thrown there by Arthur Britt after he fired at Lloyd O'Leary Saturday evening. Chief Davis believes that Britt made good his escape Saturday night into Missouri.

M. V. B. Elson and daughter Mrs. Tucker of Freeport are in the city to attend the funeral of the late Judge Barnes.

NEED OF NEW JUDICIAL DISTRICT IS POINTED OUT

Sangamon County Bar Members Believe New Utilities Commission Law Will Bring Vast Amount of Business to Already Overburdened Court.

Members of the Sangamon County bar are agitating the question of securing action from the next legislature changing the boundaries of this the seventh judicial circuit. It is maintained that the new utilities law which provides for appeals from decisions of the commission to the Sangamon county circuit court will greatly increase the business there and make it next to impossible to ever clear up the calendar. As it is now so many cases are filed in Sangamon county that the court is far behind with the business. The Springfield News yesterday in discussing this matter said that one of the districts proposed would include Sangamon, Morgan and Scott. The News article was as follows:

Changes Proposed.
"Radical changes in the boundaries of the seventh judicial circuit will be made at the next meeting of the legislature, prominent Springfield attorneys hope. Already the members of the Sangamon County Bar association have begun a discussion as to what action the legislature shall be urged to take, and at the next assembly will present recommendations as to the advisable change.
"Relief of the circuit is made necessary by the great number of cases piling up in the Sangamon county circuit court. The new utilities commission act, which provides that all decisions of the commission may be appealed to the Sangamon county circuit court, will greatly increase the business of the court and will make a redistricting absolutely necessary, it is claimed.
"Politics will play a big part in the fight for a change, as both the republican and democratic parties will fight for a geographical change which will suit them politically.
Three County District.
"Republican attorneys and politicians are prepared to urge a new district in which Sangamon, Morgan and perhaps Scott counties would be included. Such an arrangement would make the district a fair fighting ground for either party as the strength would be evenly balanced. The democratic party is said to favor the union of Macoupin and Jersey counties with Sangamon, provided there is a change, as such an arrangement would leave the remaining three counties, which would also have a democratic majority.
"The change in the district has been advised by the judges of the circuit for some time, but the last legislature refused to act. It is said that the judges will join with attorneys in demanding that the next legislature take some action to relieve the Sangamon county circuit court."

Many Cases in Sangamon.
"Sangamon county now provides over two-thirds of the work of the circuit. The large population of the county, the varied industries of the city, and the large amount of state cases brought to the local court are given as reasons for the predominance of Sangamon in the amount of legal matters. More cases are brought in this county than in any other of the state excepting Cook. The local docket now includes nearly a thousand cases in spite of the special efforts made by Judge Creighton during the last six months to cut the number down.
"Enough appeals from the state railroad and warehouse commission, now the utilities commission, are now on the Sangamon docket to occupy the attention of one judge for three months, attorneys say. The

large amount of other cases have prevented the hearing of any of these. Those who have studied the workings of the utilities commission act claim that enough cases will be appealed from it to keep one judge busy twelve months in the year.

FARMERS' ATTENTION

Geo. S. Gay, Jacksonville, Ill., wish to announce that they have arranged with the American Steel & Wire Company for a moving picture entertainment of great interest to the farmers. This is entitled "Through the Furnace to the Farm," and deals with the manufacture of steel, especially the nails, barbed wire and woven wire fence used on the farm.

There are 5,000 feet of film in five reels, and these are just a few of the scenes shown:
Mining with giant steam shovels.
Mammoth Clam-Shell buckets.
Huge Ore-carrying boats.
Blast Furnace in action.
Drawing off the Molten Pig Iron.
Bessemer and Open Hearth Processes.

A train load of white hot ingots.
Rolling out the plastic metal.
Cold wire drawing.
Galvanizing.
Weaving wire fence.
The proper way to build fence on the farm.

These have been pronounced the greatest industrial pictures of the age, and it is worth while for any farmer to see them. Admission is by ticket only. Any farmer may obtain free tickets for himself and family by calling on Geo. S. Gay, Jacksonville. Don't forget the time and the place, Jan. 16th, Friday, at Scott's Theatre at 1:30 p. m.

OUCH RUB BACKACHE, STIFFNESS, LUMBAGO, AWAY

Rub pain and soreness right out with a small trial bottle of old St. Jacobs Oil.

Kidneys cause backache? No! They have not nerves, therefore can not cause pain. Listen! Your backache is caused by lumbago, sciatica or a strain, and the quickest relief is soothing, penetrating "St. Jacobs Oil." Rub it right on the aching or tender spot, and instantly the pain, soreness, stiffness and lameness disappears. Don't stay crippled! Get a small trial bottle of "St. Jacobs Oil" from your druggist and limber up. A moment after it is applied you'll wonder what became of the backache, sciatica or lumbago pain. "St. Jacobs Oil" doesn't burn the skin.

It's the only application to rub on a weak, lame or painful back, or for lumbago, sciatica, neuralgia, rheumatism, sprains or a strain.

Money refunded if Mi-o-na is not satisfactory. Sold by druggists everywhere.—Adv.

HOT TEA BREAKS

A COLD--TRY THIS

Get a small package of Hamburg Breast Tea, or as the German folks call it, "Hamburger Brust Tea," at any pharmacy. Take a tablespoonful of the tea, put a cup of boiling water upon it, pour through a sieve and drink a teacup full at any time! It is the most effective way to break a cold and cure grip, as it opens the pores relieving congestion. Also loosens the bowels, thus breaking a cold at once.
It is inexpensive and entirely vegetable, therefore harmless.

INDIGESTION ENDED, STOMACH FEELS FINE

"Pape's Diapiesin!" In Five Minutes all Sourness, Gas, Heartburn and Dyspepsia is Gone.

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gases and stubborn lumps; your head aches and you feel sick and miserable, that's when you realize the magic in Pape's Diapiesin. It makes all stomach misery vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake try Pape's Diapiesin. It's so needless to have a bad stomach—make your next meal a favorite food meal, then take a little Diapiesin. There will not be any distress—eat without fear. It's because Pape's Diapiesin "really does" regulate weak, out-of-order stomachs that gives it its millions of sales annually.

Get a large fifty-cent case of Pape's Diapiesin from any drug store. It is the quickest, surest stomach relief and cure known. It acts almost like magic—it is a scientific, harmless and pleasant stomach preparation which truly belongs in every home.—Adv.

EBBETTS WILL MAIL TINKER A BROOKLYN CLUB CONTRACT

National League Will Fight Invasion of the Federals—Gilmore Guest in Buffalo.

New York, Jan. 12.—Notwithstanding Joe Tinker's intention not to play organized baseball this year, as evidenced by his signing a contract to manage the Chicago Federal League team, Charles H. Ebbetts of the Brooklyn National League club, announced today that he would mail Tinker a Brooklyn club contract this week.

"In my opinion," said Ebbetts, "as far as our taking legal steps to keep Tinker from playing with the Federals is concerned, we would have to wait until he actually begins to play, with the Federals before applying for an injunction. Until he does that we will not know positively that he is not going to come into the Brooklyn fold."

"The National League naturally is going to protect itself against the invasion of the Federals but what steps are to be taken I am not prepared to disclose."

"The most foolish thing the National League could do now would be to show its hand."

No Trouble in Getting Players. Buffalo, N. Y., Jan. 12.—James A. Gilmore, president of the Federal League who is visiting the cities comprising the eastern district of the league's circuit was the guest of Buffalo supporters of the league today. A dinner was given in his honor, attended by men of high financial standing in the community.

President Gilmore outlined the work that had been done up to the present time in the formation of the league in the various cities and stated that its affairs were in a highly satisfactory state.

"We shall have no trouble in getting all the players we want," said President Gilmore, when questioned as to the report that the league was turning to Cuba in its hunt for men. Meet in Indianapolis. Indianapolis, Ind., Jan. 12.—Charles Weegham, one of the owners of the Chicago Federal League baseball club and William Walker, his partner, were in Indianapolis today consulting with E. E. Gates, counsel for the league. J. Edward Kausel, president of the Indianapolis team, was also present at the conference. The promoters declared that only routine business was discussed at the meeting and that they were making a trip around the Federal League circuit to inquire into the work being done in the various cities to get ready for the coming season. The Chicago club owner asserted that he had signed 21 players of major league ability but that if it was necessary, some of the men would be transferred to other cities of the circuit to strengthen the teams.

Joe Tinker, manager of the Chicago club, who had expected to accompany Mr. Weegham, was detained in Chicago by illness of his wife. Mr. Weegham and Mr. Walker departed late tonight for Pittsburgh where they expect to meet President J. A. Gilmore.

International League Will Fight. New York, Jan. 12.—Edward Barrow, president of the International League, in a statement today concerning the proposed invasion of the Federal League of three International League cities—Toronto, Baltimore and Buffalo, declared that the new league's leaders were not fighting fair and predicted that "their tactics will only bring them to grief."

"In the first place," Mr. Barrow continued, "they are trying to masquerade as a Major League when they never can become one. They have about four major league players to a team but that will not make them a major league. They have a minor league circuit. Toronto, Baltimore and Buffalo turn out good crowds but they do not turn out major league crowds."

"The players who jumped to the Federals were disloyal to their employers. Men like Tinker, Brown and Knabe were in organized baseball long enough to know that the loyalty to the reserve clause is one of the foundations of organized baseball and as much a part of their contract as their salary."

"I will say that the International League will fight these fellows to a finish in any of our cities where they intend to place teams. So far I have not heard of them signing any of our men though I have three letters which the Pittsburgh Federals have sent to my players. I might add that these players do not care to leave organized ball."

POLITICIAN FACES

MURDER TRIAL

Crawfordsville, Ind., Jan. 12.—Much interest is manifested in the case of Walter Runyan, a prominent farmer and Republican candidate for the state legislature a year ago, who was arraigned in the Montgomery county court here today to stand trial on a charge of first degree murder. Runyan is accused of having shot and killed Arlie W. Stull at the Runyan home, near Waynetown, early last November.

WILL LIVE IN IOWA.

Residents in the vicinity of Pisgah are regretting the loss of H. H. Wells, who is soon to remove to Manchester, Iowa. Mr. Wells is not himself anxious to leave his many friends in this vicinity, but he lost his wife a few years ago and relative in that vicinity, to which he is going, and for that reason he is changing his residence. He is taking with him the best wishes of a host of friends.

IS JACKSONVILLE SATISFIED?

The Evidence is Convincing—The Testimony Open to Investigation.

Before a statement can be accepted here, it must be supported by local testimony—by the evidence of someone residing in Jacksonville. Statements from unknown people in remote places may be true, but we cannot prove them. Here is a statement by a Jacksonville resident:

Charles Godfrey, 335 S. Church St., Jacksonville, Ill., says: "All I said a few years ago praising Doan's Kidney Pills holds good. They did me a great deal of good and I advise their use in cases of weak back and other kidney troubles. Doan's Kidney Pills can be procured from Armstrong's Drug Store and are worthy of a trial."

"When your back is lame—remember the name! Don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Godfrey had—the remedy backed by home testimony. 50c all stores. Foster-Milburn Co., Props., Buffalo, N. Y."

VALUE OF RHEUMA

FROM THE COURT

Judge Barhorst Was Relieved of Rheumatism After Doctors Failed.

If you have tried many other remedies and doctors' treatments for rheumatism and found they failed, do not be skeptical about trying RHEUMA. Read the testimony of Judge John Barhorst of Fort Lorraine, O.:

"After treatment by three doctors without result, I have been cured of a very bad case of Rheumatism by using two bottles of RHEUMA. It is now two years since I used the remedy and I am still as well as ever. Previously, I was a cripple, walking with crutches."

Such testimony should be convincing. 50 cents a bottle at all druggists.—Adv.

Ugly Sores Quickly Banished

You Marvel How Worst Skin
Eruptions Disappear as Result
of Famous Remedy

If you should meet anyone varnishing a
face with a greasy ointment, your best ad-
vice would be to quit such things and
attend to the blood.

To successfully fight any blood trouble,
some eruptive skin disease—call it eczema,
pimples, measles, malaria or scrofula—get
your blood under the influence of S. S. S.
It is one of those rare medical forces which
act in the blood with the same degree of
certainty that is found in all natural ten-
dencies. The manner in which it dominates
and controls the mysterious transference
of rich, red, pure arterial blood, for the
diseased venous blood is marvellous.

Out through every skin pore acids, germs
and other blood impurities are forced in
the form of invisible vapor; the bowels,
kidneys, bladder and all excretories of the
body are marshaled into a fighting force
to expel every vestige of eruptive disease.

There is scarcely a community anywhere
but what has its living example of the
wonderful curative effects of S. S. S. Get
a bottle of this famous remedy today, and
if your case is stubborn or peculiar, write
to the Swift Specific Co., 216 Swift Bldg.,
Atlanta, Ga.

Do not permit anyone to talk you into
some useless compound they put up as a
substitute for S. S. S. No honest druggist
will do this.

ADDRESS CONFERENCE ON RACE BETTERMENT

HYGIENE AND EUGENICS SOLE
HOPE FOR STRONGER MEN
AND WOMEN.

Professor Winfield Scott Hall As-
serts Child's Education Should Be
Brought About Through Mother's
Teachings, Supplemented By
Those of the Teacher in the Pub-
lic School—Other Speakers at
Battle Creek.

BATTLE CREEK, Mich., Jan. 12.—
Marriage selection, education for
race betterment, especially along
lines of eugenics and the dependent
child were some of the principal top-
ics of discussion at the closing ses-
sion tonight of the national confer-
ence on race betterment. Among
the speakers were:

Prof. Roswell Hill Johnson of the
University of Pittsburgh; Prof. Win-
field Scott Hall of Northwestern uni-
versity, and Dr. Gertrude E. Hall
of the state board of charities of
New York.

Prof. Johnson urged the widest
possible range of acquaintances for
young people, claiming that the
school and the church do not offer
sufficient advantages in that respect.
He suggested the municipal dance
hall as a beneficial step in that di-
rection. Eugenics seeks improvement
in both mental and racial quali-
ties of future generations.

Teachers Not Responsible.

School teachers should not shoul-
der the responsibility of teaching
sex hygiene to the young, said Prof.
Hall of Northwestern in the discus-
sion of education for race better-
ment. He declared it was impor-
tant, however, that the school teach-
er should supplement home teach-
ings and should assure purity of at-
mosphere in school by close super-
vision of recreation periods.

Sole Hope for Stronger Race.

Hygiene and eugenics offer our sole
hope for stronger men and women,
according to Winfield Scott Hall,
professor of physiology at Northwes-
tern university, in an address today
to the National Conference on Race
Betterment. It is not possible nor
desirable that men should be bred
by arbitrary rule like cattle, Dr.
Hall said, but the same results may
be practically obtained by control
in the home, from infancy onward,
of the minds of young people.

"A young woman who has come
to the ripe estate of twenty-one or
twenty-two and has learned all the
lessons about herself from a sym-
pathetic, clear visioned mother, is
in a mental attitude easily to be
guided in her choice of a life part-
ner. Similarly the young man will
have been taught to recognize and
demand a perfect woman for a wife."

Dr. Hall said that school teachers
should not be called on to assume
any responsibility of teaching sex
hygiene. It was of the highest im-
portance, however, he declared, that
teachers should supplement home
teachings and should assure purity
of atmosphere in school by close
supervision of recreation periods.

"But positive hygiene and positive
eugenics can be brought about in the
human race only through educa-
tion," said Dr. Hall. "The first
lesson regarding the life should be
taught by the mother to her ques-
tioning child. It is practically a
universal custom of childhood to ask
the mother where they got the baby.
The thoughtful twentieth century
mother accepts the question as indi-
cating the psychological moment to
teach her child the first great lesson
and to give it a wholesome view-
point regarding life."

"It is the uniform and universal
testimony of parents that the child-
ren accept these truths as sacred,
that they are drawn into a much
closer and confidential relationship
to the parents and that they are
protected against contamination by
older, low minded associates."

"The teacher, before the child
reaches the thirteenth to the fif-
teenth year, should not be called up-
on to impart to the child these great
fundamental truths of life which it
is the inherent right of the child to
hear from his parents. The teacher
must show all vigilance and tact in
protecting the children of her school
against bad influences. The teacher
should accept every opportunity to
confirm in the mind of the child the
same wholesome attitude regarding
the sacredness of life which has
been implanted by the parents.
Many an opportunity will be offered
the teacher for dropping a word in
harmony with this mental attitude
in the course of nature study work."

Concerning "social relationships,"
Dr. Hall said: "Young people
should have it very clearly set forth
that the only absolute safety is not
to permit the beginning of familiar-
ity."

"Let the young people be taught
that the embrace is society's sacred
symbol of protection and that the
kiss is society's sacred symbol of af-
fection. Once that lesson is clearly
impressed, we may trust the young
people to guard even the threshold
of familiarity. State laws guard-
ing the license to marriage may
help some in eugenics, but at most
little can be accomplished through
state intervention. Most that may
be hoped for through eugenics must
be accomplished through education.
A girl who has acquired at home a
high ideal of manhood can be trust-
ed not to fall in love with a man
who falls short of this ideal."

"In a similar way, the young man
recognizes ideal womanhood and
having made himself worthy of a
perfect woman, looks for one for a
wife."

No Easy Task to Improve Race.

"It will be no easy task to im-
prove the race so there will be no
dependent children," said Dr. Ger-
trude Hall. "The gradual elimina-
tion of the dependent child, however,
will be one of the indications of

superiority in our national stock and
in our civilization.

"This country of ours is big
enough and rich enough so that
every family ought to find room
enough to live and be sure of steady
employment at a living wage."

"Society should take measures to
prevent the grinding poverty and
discords which wreck so many
homes and thereby create a better
parenthood and neighborhood life.
American civilization must be built
on sound home life, on devotion of
parents to their offspring, on respect
of children for the parents and fi-
nally, on the protection of the home
by philanthropic agencies and by the
state itself."

Dr. Hall said the impulse to give
liberally to appeals in behalf of de-
pendent children should not be fol-
lowed without first considering the
good and the harm that may result
therefrom.

She declared that in New York
state not more than half of the
causes of dependency are legitimate.
Legitimate causes of dependency,
were, she said, desertion of parents,
improper guardianship, destitution,
illiternity and temperance of par-
ents.

Should Share Cost Equally.

"In order that the existing popu-
lation may be maintained or indeed
that the race may survive, it will ap-
parently be necessary to make a
eugenic selection of healthy mothers
and to provide that the cost of bear-
ing and rearing children shall be
equally shared by all."

This declaration was made here
today in an address by Dr. J. Mc-
Keen Cattell, professor of philosophy
in Columbia University, before the
conference.

Dr. Cattell's subject was "The
Declining Birth Rate." "The com-
pleted family of contemporary sci-
entific man," said he, "is about 2,
the surviving family about 1.8 and the
number of surviving children for each
scientific man about 1.6. Twenty
two per cent of the families are
childless; only one family in seventy-
five is larger than six. The same
conditions obtain for other college
graduates."

"If the size of family of college
graduates should continue to de-
crease as it did during the nineteenth
century, students graduating in 1925
would have no children."

If the birth-rates in England
Germany and France should con-
tinue to decrease as they have since
1880, there would be no children
born a hundred years hence.

"In France the population is now
stationary, while in some depart-
ments there are four deaths for every
three births. In other nations an
increasing population has been main-
tained through a decreasing death-
rate; but in England and elsewhere
the death-rate must increase, being
now so low on account of the ag-
gregation of the population. It is
only in Japan that the birth-rate is
increasing, though it still remains
high in Russia. Five dreadnoughts
built annually in England are frag-
ile toys compared with five million chil-
dren born annually in Russia."

"Answers from 461 leading sci-
entific men giving the causes which
led to the limitation in the size
of their families show that 176 were
not voluntarily limited, while 285
were so limited. The cause volun-
tary limitation being health in 133
cases, expense in 98 cases, and var-
ious other causes in 54 cases."

"Childlessness was involuntary in
two-thirds of the cases. In the stand-
ardized family of two, the condition
is desired in six cases out of seven.
"In over one-third of the families
the limitation was involuntary, due
to infertility and other pathological
causes, but if these had not obtained,
voluntary limitation would have oc-
curred later, in nearly all or perhaps
in all cases. Neither the prevalence
of the voluntary limitation of the
size of family, nor the fact that the
size of family is limited directly or
indirectly through fertility or il-
lhealth in more than three-fourths
of the cases can be regarded with
satisfaction."

Others who addressed the confer-
ence today were:
Hastings Hart of New York, Rob-
bins Gilman of New York; Dr. C. B.
Davenport of Cold Springs Harbor,
N. Y.; Dr. Maynard M. Metcalf of
Oberlin college; Prof. H. A. Miller
of Olivet college and Prof. Walter
Wilcox of Cornell university.

"SYRUP OF FIGS" FOR CONSTIPATED CHILD

Delicious "Fruit Laxative" can't
harm tender little stomach, liver
and bowels.

Every mother realizes, after giv-
ing her children "California Syrup
of Figs," that this is their ideal lax-
ative, because they love its pleasant
taste and it thoroughly cleanses the
tender little stomach, liver and bowels
without griping.

When cross, irritable, feverish or
breath is bad, stomach sour, look at
the tongue, mother! If coated, give
a teaspoonful of this harmless
"fruit laxative," and in a few hours
all the foul, constipated waste, sour
bile and undigested food passes out
of the bowels and you have a well,
playful child again. When its little
system is full of cold, throat sore,
has stomach-ache, diarrhoea, indig-
estion, colic—remember, a good
"inside cleaning" should always be
the first treatment given.

Millions of mothers keep "Cal-
ifornia Syrup of Figs" handy; they
know a teaspoonful today saves a
sick child tomorrow. Ask your
druggist for a 50-cent bottle of "Cal-
ifornia Syrup of Figs," which has
directions for babies, children of all
ages and grown-ups printed on the
bottle. Beware of counterfeiters sold
here, so don't be fooled. Get the
genuine, made by "California Fig
Syrup Company."

SCHMIDT ON TRIAL AGAIN.

New York, Jan. 12.—The electric
chair at Sing Sing or life imprison-
ment at Matteawan, with the chances
apparently about evenly divided be-
tween the two, is the prospect that
faces Hans Schmidt, the former priest
and confessed murderer of Anna
Amiller, who was brought into
court today to stand trial for the
second time. The first trial, which
was concluded less than two weeks
ago, resulted in a disagreement of the
jury. It was reported that the
jury stood 10 to 2 for a verdict of
guilty of murder in the first degree.

GOOD-BYE DANDRUFF

Parisian Sage stops Falling Hair and
Itching Scalp; Removes Dandruff
With One Application.

If your hair is too thin, make it
grow. If it is too dry and brittle,
soften it up—lubricate it. If you
have dandruff it is because the scalp
is too dry and flakes off. "Freshen
up the scalp and dandruff will go."

Parisian Sage, always sold by
Coover & Shreve in 50 cent bottles,
is just what you need to make your
scalp healthy and immediately re-
move dandruff—your hair wavy, lus-
trous and abundant.

You cannot be disappointed in
Parisian Sage. It quickly stops it-
ching head; cleanses the hair of dust
and excessive oil; takes away the
dryness and brittleness; makes it
seem twice as abundant and beauti-
fies it until it is soft and lustrous.

H. C. LANGFORD DIES FROM BLOOD POISONING

Franklin Resident Cuts Finger While Butchering Which Eventually Causes His Death—Funeral will be Held Wednesday.

H. C. Langford, who resided three miles south of Franklin, died Sunday morning at 5 o'clock as the result of blood poisoning. Two weeks ago Mr. Langford was butchering and accidentally cut the middle finger of his left hand. He did not pay much attention to the wound although it pained him for several days. Some bad symptoms developed the last few days, when he consulted a doctor, and he was advised that his chances for life were not very good. His condition gradually grew worse until the end came.

He was born Sept. 9, 1852 in Livingston, White county, Kentucky, the son of Chapman and Nancy A. Langford. At the age of four years the family moved to Illinois and settled near Waverly. In 1863 they moved to the Hart's Prairie neighborhood where they lived for some time and finally moved to the residence south of Franklin.

He married Sarah P. Seymour, daughter of James and Eleanor P. Seymour, who survives him, also two daughters, Eunice A. and Leona. He also leaves one brother, Reuben J. Langford, and two sisters, Mrs. Amanda Preston of Virden and Mrs. Harriet Drumm of Franklin. Four brothers and two sisters preceded in death.

Mr. Langford was a man who made many friends and held them. He was honest in all his dealings, kind and loving to his family, and highly regarded in the community. His untimely death will be deeply regretted. He was a member of the Franklin lodge No. 121 I. O. O. F., and they will take part in the funeral services.

The funeral will be held Wednesday morning at 11 o'clock at the M. E. church in Franklin, Rev. A. H. Plagge officiating, assisted by Rev. Peter Kittel. Music will be furnished by the church choir and the flowers will be in charge of Misses Elsie Tribble, Grace Roberts and Beulah Hart.

Burial will be made in the Franklin cemetery and the bearers will be as follows, active bearers, Geo. Reynolds, Otis Van Winkle, H. H. Tulpin, N. Z. Reinbach, W. C. Hart, Charles Randall, George Calhoun and Thomas Foster. The honorary bearers, A. M. Calhoun, W. L. Clayton, Thomas Bland, James H. Roberts, Fred Burch, Bird Seymour, Frank Tribble and H. G. Keplinger.

CELEBRATE BIRTHDAY.

Sunday marked the eighty-sixth birthday of G. S. Russel and in honor of that important event his daughter, Mrs. George L. Merrill entertained the members of the family and immediate relatives at dinner. The occasion was one of great pleasure and none enjoyed it more than Mr. Russel who in spite of his advanced years still maintains an active interest in the affairs of life. During the afternoon a number of long time friends called to offer their congratulations to Mr. Russel and a special message came from the trustees of Westminster church of which board he was for many years a member. G. S. Russel has lived long in Jacksonville. He retired a few years ago after an honorable business career and no citizen of Jacksonville today is more highly esteemed.

COUNCIL PASSED APPROPRIATION ORDINANCE AT MONDAY SESSION

Contracts Awarded for Belted Generator and Boiler—Mr. Newman Makes "Personal" Remarks.

The city council held a regular session Monday morning when the principal business transacted was the passing of the annual appropriation ordinance and the letting of contracts for a belted generator and a 300 horse power boiler. The contract for the generator was awarded to Fairbanks, Morse & Co. at \$1280, and the contract for the boiler to Bernard Gause at \$2825.

After the usual routine business had been transacted the city clerk read the report of Miss Welley, city matron, in which she mentioned a number of cases acted on during the past month. Mayor Davis presented a letter from Henry B. Roney of Chicago in which the writer mentioned that his offer to give any municipality a permanent Christmas tree is still open. The requirement is made that any municipality which accepts the offer shall pay the expense of having the tree dug up and shipped by freight together with enough of the original soil to make certain its growth in the new location. Mayor Davis said he had previously suggested that the municipal Christmas tree was worthy of investigation and that he believed such a tree might well be planted in Central park. He said he would write Mr. Roney and find out the probable cost of having a tree made ready for shipment and the freight charges here.

Appropriation Ordinance Passed.
The annual appropriation ordinance was given a second reading and passed, Mr. Newman alone voting against it. He maintained that the sums appropriated for the water and light departments were too large. Commissioner Brennan to whom the matter had been referred, reported in favor of accepting the bid of the Fairbanks, Morse & Co. for a belted generator at \$1280, and Mr. Newman wanted to know if it was not possible to buy the generator from some other house. He said that this firm made good scales but he didn't know about the electrical end of their business. The contract was awarded on a vote of four to one.

Mr. Brennan also recommended that the bid of Bernard Gause for furnishing a 300 horse power boiler be accepted at \$2825. Mr. Newman said that the public would look with suspicion on any purchase in which Mr. Gause, Mr. Knollenberg and Mr. Brennan were concerned and that he was opposed to buying such a cheap boiler.

No More Personalities.
Mr. Gause was present and was ready to make a statement in reply to Mr. Newman's charge but Mayor Davis stated that discussion of this kind was entirely out of order. The mayor stated also that he would make a special effort to preside during all the rest of his term and that personalities could not be indulged in by any commissioner. He said such personalities were entirely out of order.

The city clerk read an ordinance prepared by the city attorney providing for a tax of one dollar each on all light, telephone and telegraph poles. The ordinance is very brief but the city attorney believes it will cover the case and the evident intention of the council is to collect this tax from the light company, the telephone and telegraph companies. Mention was made of the fact that the city is using some of the poles owned by these companies but Mayor Davis stated that enough of the city's poles are in use by these private companies to offset this.

The council then adjourned.

COUNTY COURT NEWS.

In the case of the People vs. Bert Shanning on charge of selling liquor in anti-saloon territory, a plea of guilty was entered. Judge Brockhouse sentenced Shanning to 30 days in jail and assessed a \$100 fine and costs. Shanning was committed to jail under the workhouse mittimus.

In the case of the People vs. Belle Walker on charge of keeping house of ill-fame, a plea of guilty was entered. Court to fix penalty.
In the case of the People vs. Joseph Estaque on charge of gambling, the case was not completed and court adjourned to meet this morning at nine o'clock, when the case will be resumed. Ben Morgan, star witness for the state was on the stand when court adjourned. Under cross examination by Attorney Wilson, Morgan did not appear to be certain on very many points and had frequently to refer to a note book which he had with him and in which was supposed to be written much data concerning the case against Mr. Estaque. Morgan will resume the stand when court convenes this morning.

The jury is composed of the following: Edgar Cooper, P. J. Lacey, C. C. Courtney, Ernest Schell, William Harkleroad, J. W. Priest, Walter Adkins, John Snyder, E. P. Sooy, R. D. Mawson, F. C. Weiss, and C. A. Million.

MORTUARY

Trousdale.
Frank Trousdale of Lynnville received a telegram Monday announcing the death of his mother, Mrs. J. C. Trousdale, who passed away suddenly at her home at Sikeston, Mo. Mrs. Trousdale was 63 years of age and had been in tolerably good health. She was born in Fairfield, Ill., but had been in Missouri for a number of years. She is survived by four sons, David of Fairfield, William Ross and Henry of Sikeston, Mo., and Frank, who is teaching school at Lynnville.

Mr. and Mrs. Trousdale left Monday evening for Fairfield where the funeral will take place Wednesday.

Spire.
At 2:30 p. m. Sunday, Charles O. Spire, breathed his last at the home of his father, W. T. Spire, of this city. The young man had not been in the best of health for four years, having suffered with heart trouble, and when attacked by pneumonia was unable to withstand the dread disease. His illness was short, as he was about Wednesday morning attending to his duties, but he went home not feeling well and went to bed, to rise no more.

Charles Oscar Spire was born near Nortonville, Oct. 18, 1868, and spent his life in this county, the greater part of it in Franklin precinct. In 1892 the family moved to this city, where they have since resided. Charles was employed by J. W. Woods for some time and the last he did was some collecting for that establishment.

He first joined the Youngblood Baptist church, but when he came to this city did not at once transfer his membership, but during the Billy Sunday meetings he concluded to let his light shine more brightly here and united with the First Baptist church of this city and has ever since been a consistent member. He loved to read his Bible and spent many hours with the precious book.

He leaves his parents, Mr. and Mrs. W. T. Spire, and sister, Miss Carrie Spire, bookkeeper at Hopper's shoe store.

The funeral will be conducted this morning at 10:30 in the First Baptist church, Rev. W. L. Dorgan officiating.

Gulick.
The venerable Rev. J. I. Gulick died Monday morning at his home in Mason City, after a brief illness. He was one of the grand pioneer Presbyterian ministers and while residing in Mason City served churches in Manchester and Murrayville, having many friends in both places. He was about 83 years of age and had not done regular duty for some years. He leaves a wife, one daughter at home and a sister, Mrs. Carkuff, of Roundhouse.

Baird.
Claude Arnold, the little five year old son of Mr. and Mrs. C. F. Baird, 615 N. Fayette street, died of diphtheria at 9:50 Monday night. Just one year and two weeks ago today

his little sister, Dorothy Evelyn aged two years, was taken ill with pneumonia and died. He is survived by his parents and one brother Darwin. The many friends of the family will extend to them the deepest sympathy in their bereavement.

Donohue.
Miss Margaret Donohue, passed from earth Monday evening at 7 o'clock, at her late residence 869 West Railroad street, after several months' illness, which she has endured patiently.

She was born in Jacksonville, Sept. 23, 1863 and has always made this community her home. She received her education in the Parochial schools. She was a devout member of the Church of Our Savior.

She is survived by two nephews, Thomas and Charles Crawley. Her father and mother preceded her in death several years ago. No arrangements for the funeral have been made.

SPECIAL TODAY.
APPLE PIE.
Ideal Bakery, State Street.

BROKE INTO CAR.

W. L. Simpson, agent for the Wabash reported to the police department Monday that a car on a track adjoining the Wabash freight house was broken into some time Sunday night. Thirty two pairs of Beacon brand low cut shoes were taken. They were enroute to a dealer at Pittsfield.

KNIGHTS OF PYTHIAS NOTICE.
Members of Jacksonville Lodge 152 and Favorite Lodge 376 Knights of Pythias, and visiting knights, are requested to meet in Castle hall at 12:30 o'clock today to attend the funeral of Past Supreme Chancellor, Charles A. Barnes.

W. D. Gates, C. C. of 152.
E. P. Brockhouse, C. C. of 376.

GAS COOKERY DEMONSTRATION.

W. B. Miser, superintendent of the Jacksonville Railway & Light Co., has completed arrangements for a demonstration of the various methods of using gas in cookery. It will be held March 23 to 28 in the building north of the company office on South Main street. Charles S. Smith of St. Louis, Mo., was in the city Monday to arrange some details of the demonstration.

CAUGHT FROM FLEE.

A small roof fire at the residence of William J. Young, 231 South West street, Monday evening was the result of flying soot from the burning out of a fire. The fire department, which was called to the young residence about 6:45, put out the fire with a Babcock extinguisher.

M. L. Hildreth has returned from a few days' trip to northern Indiana. Mr. Hildreth stated that although the weather had been quite cold, there was no snow and the roads were in fine condition.

ANNUAL MEETING HELD AT TRINITY CHURCH

Reports Presented Showed That the Church Affairs Are in Excellent Condition—Vestrymen Chosen.

The annual meeting of Trinity parish took place last evening at the parish house with a good attendance. Reports of the treasurer of the parish and of all societies and organizations in the church were read. The general treasury of the church showed a balance on hand after all expenses were paid and the same was true of all the societies and organizations in the church.

The following vestrymen were then chosen for the ensuing year: Messrs. J. G. Ames, C. F. Fawcett, Walter Bellatti, W. T. Capps, H. M. Andre, A. J. Ward, William Robinson and J. Whitaker.

After the routine business had been transacted the formal meeting adjourned and nice refreshments were served by the ladies' guild of the church. This part of the program was especially pleasing and much enjoyed by all present. A delightful social time followed and at a late hour the members dispersed to their several homes.

The meeting was one of unusual interest and satisfaction in that all debts were paid and a balance in the treasury. With such a financial condition the church begins the new year under the most encouraging circumstance. The new rector, Rev. H. R. Neeley, is winning golden opinions by his able, sound and sensible sermons while in his daily life he endeavors in a wise manner to shepherd his flock in such a way that the greatest spiritual good may be accomplished.

ATTEND BIG AUCTION.
Today at 9:30 a. m., 2 p. m. and 7:30 p. m. will be held our auctions on coats, furs, millinery, etc. Come it will be more than worth your while. 227 East State street. Floreth Company.

FUNERALS
Wood.

Funeral services for Frances Elizabeth Wood daughter of Mr. and Mrs. W. J. Wood of Alexander were held at the Union Baptist church Monday morning at 11 o'clock in charge of Rev. J. E. Curry, in the presence of a large gathering of relatives and friends. Music was furnished by the church choir and Mrs. Terrance Brennan sang "Nearer My God to Thee" which was very appropriate. The many beautiful flowers were cared for by Mrs. James Wood and Mrs. John Samples.

Interment was made in Union cemetery and the bearers were: Albert Curry, Roy Dyer, Otto Wood and Ernest Dyer.

Friends from a distance to attend the services were: Mrs. Henry Troutner of Pittsfield, Mrs. Julius Ehrlich of Joy Prairie, Mrs. J. I. Jameson, Mrs. W. A. Daub, Mrs. George Samples and Mrs. Terrance Brennan of Jacksonville.

The funeral of William Gordon was held from the family residence, southwest of Lynnville Sunday morning at 11 o'clock in charge of the Rev. Joseph Camp of Eureka, who was for many years a friend of the deceased. Rev. Mr. Camp was assisted by the Rev. G. W. Burnett of the Lynnville Christian church and the Rev. Giles Reeder, a neighbor of Mr. Gordon. Rev. Mr. Camp, in the course of his sermon, paid a high tribute to the character of Mr. Gordon, who was the last surviving member of the Lynnville church. From a boy the deceased had been a member of his congregation and all through his long life he was faithful and diligent in living up to obligations assumed in early life.

WILL RE-WIRE GENERATOR AT THE MUNICIPAL LIGHT PLANT

Work Will Be Completed in Day or Two—Two Hundred New Tungsten Lamps to Be Installed Within Thirty Days.

A representative of the Ft. Wayne Electric company is busy at the municipal plant making some changes on the generator which was brought at Weehawken a few months since and substantially installed. When he has completed his work, which will be either today or tomorrow the generator will have been changed from a two to a three phase machine. Changes will also be made on the switch board which will make it possible to use either one of the engines in the plant for street lighting or for pumping.

The plans which are now being followed will result in the placing of tungsten lamps in all parts of the city. And until the belted generator for which the council let a contract a year ago is installed, the present generator will be used. After the current is supplied from the belted generator and the new boiler has been installed the current for pumping will be supplied from the city plant.

The tungsten system will be a great improvement over the present conditions and at the beginning two hundred lamps will be installed. They will be of 200 k. w. power and will be placed in hoods where the arc lights are now located. The lamps at all street intersections will be of 200 k. w. as stated and at some intermediate points lamps of 100 k. w. power will be utilized. From time to time additions will be made until Jacksonville is a well lighted city. The 200 lamps which are to be installed, speedily in accordance with arrangements made by Commissioner Brennan, will give more light than the city has had for years and the work of placing the hoods and sockets in position will be begun at once and the 200 lamps will be in service within thirty days.

The contract for the belted generator provides that it shall be installed and working within forty days and the contract for the new boiler provides for its installation within sixty days. The council has determined on these plans and by the expenditure of not more than \$50,000 will have the city much better lighted than has been true for a long time and will be in position to cut down expense for pumping.
